- 0-to-1 Product Development • Product Strategy & Roadmap • Go-to-Market (GTM) • Platform & API Strategy
- A/B Testing & Experimentation • User Research • Product Analytics • Conversion Optimization
- Cross-Functional Leadership • Roadmap Prioritization • AI/ML Product Strategy • Revenue Growth

EXPERIENCE

VP of Product, Mobile & AI Growth | Wells Fargo Digital Strategy & AI Nov 2023 – Present

- Grew consumer mobile app from 18M to 32M MAU, advancing JD Power ranking from #9 to #3 among US banks.
- Built push, in-app, and lifecycle messaging system that lifted feature adoption by 37%.
- Scaled Fargo AI assistant from 4.1M to 27.5M interactions, cutting contact center costs by 17%.
- Led platform migration to API-first architecture, achieving 35% faster data retrieval across all channels.

Product Partner | Avatour AI, AR/VR Startup (Fractional) Oct 2025 – Present

- Shipped AI summarization engine for 360° inspection workflows, cutting documentation time by 80%.
- Launched conversational AI agent handling onboarding and support, improving NPS and reducing ticket volume.
- Pivoted product from live inspections to AI-assisted reporting, expanding TAM by 3.2x to \$45M.

Director, Product Management | First Republic, Digital Channels Apr 2016 – Oct 2023

- Integrated Zelle P2P and Apple Pay for 1M+ clients, driving 27% increase in mobile transactions.
- Owned \$20M digital portfolio across payments, lending, and wealth; led 22-person team through platform rebuild.
- Executed core banking migration from Fiserv to FIS, enabling real-time wires and 18% YoY revenue growth.

AVP, Digital Product Manager | Wells Fargo Virtual Channels Aug 2012 – Apr 2016

- Designed multi-factor authentication for 25M digital banking users, reducing unauthorized access by 40%.
- Deployed cardless ATM access via mobile wallet, reducing card-present fraud by 30% across 13K ATMs.

Senior Consultant | Magley & Associates Dec 2008 – Aug 2012

- Built business cases for \$500K–\$20M digital initiatives at Starbucks, Hilton, and Yahoo!.
- Developed customer growth and engagement strategies for enterprise clients, growing active digital users by 15%.

SELECTED BUILDS

Fenix | RAG agent for kiranrao.ai (independent build) 2026 – Present

- AI concierge with RAG architecture (Supabase + pgvector + Voyage embeddings), Claude tool-use, and SSE streaming; persona-aware, identity-gated, ships live JD-to-evidence mapping for hiring conversations.

Scannibal | iOS consumer app (independent build, TestFlight) 2025 – Present

- Multi-mode consumer iOS app powered by Gemini multi-modal AI and ElevenLabs voice; subscription model with charitable revenue-share to the DIA Fund.

EDUCATION & CERTIFICATIONS

B.S. Business Administration, San Diego State University | **Product Strategy**, Kellogg School of Management
